HOBBIES

EXPERIENCE

2022 - 2024

IT Trainee - *ING (through Calco)*

Followed a 2 month IT crashcourse, where I earned Azure, SQL and two Scrum certificates and developed my soft skills.

After two months I joined the Egeria team in ING, an open source metadata and governance project.

Here I learned to:
- Use Github for version control with local and external partners
- Use JavaScript (JSX) and React (hooks) to build an interactive UI
- Use libraries to help with building reusable component

In july 2023 I transferred to a different team within ING.
Here I also focused on the front-end, reworking the UI to improve the user experience.

On top of further developing the skills I learned on the Egeria team, I also learned how to:
- Run pipelines on Azure DevOps environment
- Optimize code to reduce redundancy and improve readability
- Make wireframes and mock-ups for a rework of the UI
- Deploy changes to different environments for testing of local changes

2015 - 2022

Assistent Manager - *Finnegan's Irish Pub & Restaurant*

- Reorganize the work environment for optimal efficiency and productivity
- Addressing concerns or wishes appropriately for both guests and colleagues in a problem-solving manner
- Scheduling, training and supporting a team of 10+

2017 - 2018

Character Designer - *Gamious*

- Making 2D designs and 3D models of characters and animating these
- Document changes and choices for reference for team members
- Agile way of working
- Take part in daily and weekly SCRUM meetings

2017

UX Designer - *University of applied sciences HAN*

- Analyzing the users and their way of thinking and making personas
- Designing several screens for a prototype of the app
- Very clear and direct communication with different stakeholders
- Iterative design of the app to ensure stakeholder's needs are met throughout the development process
